Priyanka Chikhale.

Noida, UP, India | Phone: 9834010049 | Email: pchikhale2398@gmail.com

Professional Summary

Results-oriented Power BI Developer with 3+ years of experience in data-driven solutions, creating interactive business intelligence reports, and visualizing complex datasets. Skilled in Power BI, SQL, Snowflakes, Power Query, Power Pivot, Data Modeling, DAX, and Data Warehousing. Expertise in transforming raw data into actionable insights to drive business decisions and performance.

Technical Skills

- Power BI: Power Query, Power Pivot, DAX, Custom Visuals, Power View, AWS Connectivity-
- Data Modeling: ETL processes, Data visualization techniques
- SQL: Data extraction, transformation, and loading (ETL), SQL Database Connectivity
- Databases: SQL Server, T-SQL, MySQL, Postgresql, MongoDB, Data Warehouse, Snowflakes, AWS, Azure
- Programming: Python (NumPy, Pandas), C, Java, HTML, CSS, C++.
- Version Control: Git, GitHub
- BI Tools: Power BI Services, Gateways Configuration, MS Fabric, Workflow
- MS-365: Power Automate, Power App, SharePoint
- Data Warehousing: Concepts and methodologies
- Agile Methodology: Jira
- Power BI Paginated Report-SSIS, SSRS, SSAS

Professional Experience

Senior Software Engineer

QSS Techno Soft Pvt. Ltd. | Noida, UP

Aug 2024 – Present

Project: Oforce Tennacle Migration | **Domain**: Sales

- Designed and developed Power BI dashboards for business stakeholders, enabling data-driven decision-making.
- Utilized SQL for efficient extraction, transformation, and loading (ETL) processes.
- Built and optimized data models to support business reporting and analytics needs.

- Collaborated with stakeholders to understand reporting requirements and translate them into analytical solutions.
- Maintained data accuracy and facilitated timely reporting through automated refresh schedules.

Power BI Developer

Reznext Global Solution Service Pvt. Ltd.

Jun 2021 – Aug 2024

Project: AVIVA Warehouse (Client: AVIVALIFE, UK) | Environment: Power BI, SQL Server, SSIS

Data Modeling & Report Development

Optimize Power BI data models for performance, ensuring quick query response times for large datasets.

Data Integration & Analysis

DAX (Data Analysis Expressions) Development

- Write complex DAX queries for creating calculated columns, measures, and custom aggregations to support reporting needs.
- Use DAX for time intelligence, filtering, and applying business rules to the data.
- Configure Row-Level Security (RLS) to restrict data access based on user roles.
 Manage user access and permissions, ensuring the right people can view the right data.
- Collaborated with cross-functional teams to deliver actionable business insights via Power BI.
- Developed interactive and dynamic Power BI reports with drill-down capabilities for improved data insights.
- Enhanced data models and SQL queries to improve dashboard performance and scalability.

Education

MBA in Finance & Marketing (CGPA: 8.8 | Graduated: 2023)

BE in Computer Science & Engineering(CGPA: 9.2 | Graduated: 2020)

Awards and Achievements

- Annual Excellence Award, 2024
- Anchoring Committee Member, 2016-2019
- Department Student Council KRANS Member, 2017-2020
